## DEFENSE'S SIDE State Librarian STARTED TODAY

Plaintiff Closes in Gold Fish "Farm"  
Accounting Suit After At-  
torneys Testify

TRACKWELL ON THE STAND

Special Judge Austill of Anderson  
Hears Arguments in Binford  
Estate Suit

The plaintiff's side of the case of Thomas Trackwell, administrator of the estate of the late Mrs. Samantha J. Shoup against Mrs. Maggie Irvin, Chester Heck, and Susie Brown, closed at noon today and the defense started introducing evidence.

Indications are now that the case will end sometime Wednesday, probably late Wednesday afternoon. The defense has thirty witnesses and it is expected to require all of this time to get the evidence before the court. Mr. Trackwell, the plaintiff, a resident of Marion, Ind., was on the stand all of Saturday afternoon and for over three hours this morning. The case is for an accounting and the details of the gold fish business carried on by the defendant at Waldron were gone into extensively.

Just before the evidence of the plaintiff was closed Erastus McDaniel and Conner D. Ross, two of the attorneys for the plaintiff, took the stand and told of serving notice on the defendants shortly after the administrator was appointed telling them to turn over the books and accounts of the firm of Shoup and Heck.

While this case was going on in the large court room, H. Clarence Austill, judge of the Madison superior court, was hearing the argument on the issue in the case of Harry M. Hudson against the estate of the late Jared P. Binford, in the smaller court room. Judge Austill qualified as special judge. Judge Blair was first appointed but could not serve. The case is a claim in which \$7,000 is demanded. The action is brought against the administratrix, Ella McIlvaine. The defendant was ordered to produce certain books and papers at the clerk's office by tomorrow morning at 8:30 o'clock.

Judge Raymond Springer was appointed special judge to try the case of Leonidas W. Keisling against Thomas E. Bottoroff and the Enterprise Milling Company of Milroy this morning by Judge Sparks. The suit is for an accounting in which \$10,000 is demanded.

The case of Herbert Rickett against Cleo Emsweller to foreclose a mechanics lien was dismissed and the costs paid.

## MOTORCYCLE COP ON JOB

City is Prepared to Chase Down  
Speed Law Violators

The motorcycle cop became a reality today in Rushville. The machine ordered sometime ago by Policeman Price arrived and was being tuned up ready for business. It is believed that with the aid of the motorcycle the practice of speeding will be broken up as these offenders will be watched closely. Price was recently given \$10 a month for the upkeep of the machine by the city council. The police have issued warning after warning against speeders but the practice continued, and now the police are equipped and promise some business for Mayor Bebout.

## ASSAULTS BROTHER-IN-LAW

Oscar Stewart Pays Fine For At-  
tacking Sanford Heaton

Oscar Stewart pleaded guilty to an assault and battery charge this morning in Squire Kratzer's court and was fined one dollar and costs, amounting in all to \$10.75. The charge against Stewart was filed by his brother-in-law Heaton. The trouble is said to have grown out of an argument over the possession of a child of the late Riley Stewart and a fight followed. The trouble occurred yesterday at the Heaton farm, southeast of the city.

## LAST MONTH MADE NO NEW RECORDS

County Weather Observer Shows  
That March Established no  
New Extremes Either Way.

OBSERVATIONS FOR 36 YEARS

March, 1916 will go down in history as the usual kind of March that neither comes in like a lion nor goes out like a lamb, or vice versa, according to the report of Elwood Kirkwood, county weather observer, whose observations for a 36-year period show that none of the extremes of the period were reached last month.

The maximum temperature for the period was 86 degrees, recorded in 1910, which is far in excess of any temperatures last month. The normal temperature for 36 years was 39.6 and the minimum five below, registered in 1884. The maximum daily range was 45 degrees and the minimum 28, showing a wide variance in temperature in the usual March day.

The total rainfall during March for 36 years was 141.29 inches. The maximum monthly rainfall was 12.08, the record for 1913. The minimum was .04 of an inch, which was noted in 1910. The largest number of rainy days for March was 19—in 1898, and the smallest number was in 1910, when there were two. The total snowfall for March in 23 years was 230.7 inches, which makes the average snowfall for the month 4.7 inches. The maximum snowfall was in 1906, when there was 25.5 inches.

## SHELBYVILLE MAN BUYS JACKSONIAN

Louis Holtman, Who Bid on Plant  
at Sheriff's Sale, Takes  
Possession Today

PRICE IS SAID TO BE \$2,000

A deal was closed Saturday whereby Louis Holtman, a veteran newspaperman of Shelbyville became the owner of the plant of the Daily Jacksonian. Mr. Holtman took possession today. The consideration is said to have been \$2,000.

The sale was made by the stockholders, who recently bid the plant in at the sheriff's sale. At the time of the sale Mr. Holtman and his attorney, Thomas Campbell, appeared here and submitted a bid for the plant. The former owners of the plant outbid them and again secured control of the Jacksonian. Since buying the plant they have reconsidered the matter and decided to sell to Mr. Holtman.

The linotype machine involved in the sale is still held by the linotype company.

## COUNTY ABLE TO GET ASSISTANCE

Suggested Engineer From U. S. De-  
partment of Public Roads  
Would be Helpful Now.

NEW HIGHWAYS TO BE BUILT

Applications May be Obtained in  
Which County Shows Why it  
Needs Some Advice

If Rush county wants any scientific advice when it gets ready to build some of the permanent highways that are likely to be put in during the next year, it can get a highway engineer from the office of public roads and public engineering, United States department of agriculture.

It has been suggested that an engineer would be doubly welcome here since Rush county is intensely interested just now in the question of permanent materials for the country highways. It is admitted that one of the important features of permanent highways is to make sure that they are constructed properly. The office of public roads sends out applications so that counties can follow the proper form in asking for assistance.

The application is addressed to the Director of the office of Public Roads and Rural Engineering and says: "We hereby make application for the assignment of a highway engineer to co-operate with us in the improvement of the public roads of this community, it being understood that the salary and the expense of the engineer assigned shall be paid by, and all necessary surveying instruments will be furnished by, the Office of Public Roads and Rural Engineering. In case any roads are constructed under the provision of the engineer assigned, we will furnish all labor, teams, tools, machinery, and materials necessary for the work of construction; and in case a survey of a road is made, we will furnish all necessary assistants."

Engineers will be assigned, when available, to co-operate with road officials as follows:

To superintend the construction of a section of road of sufficient length to demonstrate proper methods of construction.

To make a survey of, and prepare plans and specifications for, improving road of moderate length.

To make a study of the whole county or district for the purpose of planning a system of roads that will best serve the county or district, or for the purpose of making a report on the proper method of improving a designated system of roads and how best to finance the improvement.

To inspect any particular road and give advice relative to its improvement.

Blanks are provided to show when and why the engineer should be assigned and where he should report. The signatures of the officials in legal control of the roads must be appended to the petition.

With reference to the construction of new roads, the following questions are asked by the federal department:

"What length of road do you desire our engineer to supervise the construction of? What funds are available for constructing it? What kind of road do you desire to have built? (Earth, gravel, macadam, etc.) Are the materials for the road surfacing available locally or must they be shipped in? What kind of road building machinery will be available? Will you provide for the maintenance of the road, in accordance with the instructions of the engineer?"

## BELIES RUMORS OF WITHDRAWAL

Reinforcements And Supplies Sent  
Into Mexico Indicate Such  
Thing is Improbable

LINES ARE EXTENDED ALSO

Villa is South of Durango State Line  
Which is Reported "Dead Line"  
For Troopers

By E. T. CONKLE  
(U. S. Staff Correspondent.)

El Paso, Texas, April 10.—Reinforcements and supplies for the American expedition continued to pour into Mexico today as if there was no prospect of withdrawal soon. Activities bent on catching Villa were speeded up here also in the purchasing and forwarding of supplies.

To keep pace with the rapidly lengthening line of communications the wireless stations at Namiquita has been moved farther south. The field telegraph already extends to Galeana. In the meantime, Villa was south of the Durango state line which rumors persist, is the "death line," beyond which President Wilson is reported to have promised Carranza the United States forces will not pursue Villa.

TO STRENGTHEN LINES

(By United Press.)

San Antonio, Texas, April 10.—General Funston announced today that the lines between General Pershing's swiftly advancing front and the border will be strengthened at once and that the Columbus base will be retained.

Tentative plans for the removal of the Columbus base to a point farther south on the border have been abandoned.

Among the new troops to go south will be the detachment of the Twenty-fourth infantry (colored) which had trouble with citizens at Del Rio Texas last night, resulting in the killing of a negro trooper by a state ranger.

"I have ordered the transfer of the negro troops at Del Rio to duty on the lines of communication in Mexico," stated Funston. "We'll let them work off their excess energy down there."

24 HOURS BEHIND VILLA

(By United Press.)

El Paso, Texas, April 10.—Hanging doggedly to Villa's trail, the United States cavalry was today in the desolate Sierras around Parral. At least 24 hours march ahead of his pursuers, Villa with 200 men and fresh mounts, was at a mining camp in Durango state.

That Villa is fleeing at top speed to join the Arrieta Brothers who have 3,000 followers around Durango City, was the information sent to the border by officers of the American Mining company at Parral. Villa passed Parral on Saturday.

HOPE TO BREAK UP BAND

(By United Press.)

Washington, April 10.—Hopes for breaking up Villa's band grew today—exactly a month since issuance of orders sending General Pershing's riders across the border.

Army men through code letters from San Antonio headquarters may bring news before the week ends that the bandits have been scattered by the death or capture of their leader. The "warm trail," they believe is growing warmer, though actual news of operations was lacking over Sunday.

## ASKS FOR FURTHER TIME

Ernest Eckstrom Is Placed Under  
\$1,000 Bond by Court.

Ernest Eckstrom, indicted on a charge of embezzlement, was arraigned before Judge Sparks this morning but did not enter a plea to the charge. Eckstrom stated that he had written to an uncle living in Chicago and asked the court for further time. His bond was placed at \$1,000, which he was unable to give. Eckstrom is alleged to have taken \$177.75 from the Baldwin Piano company and failed to make good the amount when a settlement was demanded.

## SISTERS OPERATED ON AT THE SAME TIME

Miss Mary Marlatt and Mrs. Ivan  
Brenner Were Not Aware of  
Each Other's Plight

BOTH ARE SERIOUSLY ILL

Lying in rooms side by side in the Deaconess hospital in Indianapolis, one undergoing an operation immediately after the other and neither knowing of the other's plight—such is the sad story of Miss Mary Marlatt of this city and her sister Mrs. Ivan Brenner of Winchester. Both operations were performed last Friday and from that time until Sunday their brothers, Ernest and Earl Marlatt, and brother-in-law, J. H. Scholl were at the hospital, awaiting the result of the operations.

Mrs. Brenner's operation was for a sudden but not so serious complications, and she is expected to recover rapidly, but Miss Mary Marlatt, who taught school at Arlington until she went to the hospital, has been taking treatment for a month preparatory to the operation. She went with the intention of having the surgery performed immediately, but owing to her condition the surgeons refused to operate until she had passed through a course of treatments. It is announced that Miss Marlatt recovered from the effects of the ether Friday and this morning her condition was slightly improved. It is stated, however, that the outcome of her illness is decidedly uncertain and the physicians will not be in a position to offer any positive information for several days.

## CAMPAIGN OPENED FOR BIG PARK FUND

Indianapolis Teams Begin Work and  
\$25,000 is Named as Amount  
to be Secured There.

TO TRY AND BUY TURKEY RUN

(By United Press.)

Indianapolis, Ind., April 10.—A joint committee of one hundred men from the Board of Trade and the Chamber of Commerce started a campaign today for subscriptions to the state park fund.

The campaign will last two weeks and Indianapolis is expected to contribute about \$25,000. The money will be used to buy three scenic tracts of land in Indiana to be made into state parks. The state expects first to buy Turkey Run which is to be sold at auction on May 10.

All of the business organizations in the city are represented on the committee.

## GERARD EXPECTS ANSWER TODAY

American Ambassador to Berlin Be-  
lieves Germany Will Reply to  
Sussex Query

BERNSTORFF MEETS LANSING

Action May be Delayed Until Thurs-  
day Because of Non-Arrival  
of Evidence

(By United Press.)

Washington, April 10.—German Ambassador Bernstorff requested and was granted a conference with Secretary Lansing for this afternoon, presumably to discuss the Sussex case.

Ambassador Gerard cabled the state department today that he expected to receive a note from the German government today replying to the query as to whether a German submarine attacked the Sussex.

The liner St. Paul, bringing affidavits that will form an important part of the evidence in the Sussex case is now likely to arrive until Thursday, instead of today as expected. This may prevent decisive administration action that was due to follow tomorrow's cabinet meeting.

The nature of this government's evidence in the Sussex case continues to be a secret. It was described today, however, by high authority to be "strong enough to convince the president and Secretary Lansing that a German submarine attacked the vessel but perhaps not conclusive enough as it stands to warrant the breaking off of diplomatic relations."

In the cases of four other vessels torpedoed within the last two weeks, about which this government inquired of Germany, Berlin declares there was no violation of its assurances to the United States, according to press reports from Berlin.

## BAKER DEFENDS AVIATOR CORPS

Secretary of War Takes Stand  
against Manufacture of Aero-  
planes by Government.

### HIS ANSWER TO THE INQUIRY

(By United Press.)  
Washington, April 10.—The army aviator corps will be reorganized and the personnel changed by "addition, if not by subtraction," Secretary Baker told the house military committee. This was regarded as his answer to the question that will result from the war department's extended investigation into the service.

The secretary defended the aviator corps, spoke against government manufacture of aeroplanes, urged enlistment of civilian aviators and asked for an expenditure of ten million dollars in the next four years on aeroplane development.

"A great deal of criticism of the aviation service has been resulted from the enthusiasm of the men in their various departments," Baker said. "I am entirely satisfied that the investigation of the aviation service will enable me to establish highly satisfactory conditions."

## MORE DRINKING AMONG WOMEN

It is Declared Soldiers' Wives in  
England Drink Heavily Since  
the War Started.

### NEW REGULATIONS PLANNED

Considered License for Man Who  
Carries Bottle of Whiskey in  
His Pocket.

BY CHAS. P. STEWART.

(U. P. Staff Correspondent.)

London, April 10.—A plan is being considered in England today to compel a man who wants to carry a bottle of whiskey in his pocket to take out a license. It isn't likely the scheme will be adopted but it illustrates the trouble the government is having in its attempts to regulate the country's personal habits.

Present English saloon regulations were adopted as a war measure. The intention was to reach two particular classes of people—makers of munitions and other military necessities and the wives of soldiers at the front.

The authorities contended early in the war that excessive drinking by the munition workers was lowering their output. Then came the complaint that soldiers' wives were drinking too much. These women received from the government what are known as "separation allowances," varying somewhat with circumstances, but amounting approximately to from \$3 to \$4 weekly.

The sum, though small according to American standards, was liberal from the viewpoint of many English workmen. They also received it paid into their own hands, instead of being dependent on what their husbands had previously seen fit to give them. It was charged that numbers of them spent far too large a proportion of it for alcoholic refreshments.

The upshot was a regulation restricting liquor-selling daily to two hours and a half, beginning with noon, and to three hours, beginning with 6:30 p. m.

Employers complained that unless they set the luncheon hour for their help later than 2:30 p. m. many workers returned fuddled for their afternoon's duties.

Housewives were bitterly dissatisfied at the epidemic of failures by their husbands to return from work until 9:30 or a little after, for dinner.

Indications are that there has been a falling off among those on whom the drinking habit had no very tight grip, but certainly no decrease and perhaps the contrary, on the part of confirmed habitués.

## Tender Teeth—the first sign of Pyorrhea

See your dentist twice yearly.  
Use Senreco twice daily.

Your dentist will tell you, if you ask him, that you have *gum recession*; and that gum recession is caused by pyorrhea.

Unchecked, pyorrhea will warp and shrink and deform the gums. It will break down the bony structure into which the teeth are set—and you will eventually lose them. To save your teeth you will have to begin to fight this dread disease at once.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your

teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santal Remedies Company 503 Union Central Building, Cincinnati, Ohio.

—Ed Kelly, James Geraghty, William Rhulman, and Martin Black leave this evening for Lafayette to attend the blacksmith's convention.

—Mr. and Mrs. George Looney attended the funeral of Mrs. H. M. Long at Connersville yesterday. Mrs. Long was formerly Miss Hannah Mary Frybarger.

A baby boy weighing fourteen pounds was born April 2 to the wife of Capt. Paul Mason at Milford, Ohio. Mrs. Mason is well known in this city and county, being the daughter of Mrs. Nannie H. Ross, who is now at Mrs. Mason's bedside. She is seriously ill.

## Amusements

The Mystic will show a four act feature "The Coquette" for the program tonight. Rea Martin is featured and it is said to be a fine production. Tomorrow matinee and night the five act feature "The Miracle of Life," will be shown. Margarita Fischer and Joseph Singleton are featured. It is a picturized preachment against race suicide and comes highly endorsed.

The Princess offers the five reel feature "Kilmeny" for the program tonight. Lenora Ulrich, the star of "The Bird of Paradise" is featured. "Kilmeny" a child of aristocratic parentage who grows up from six to eighteen with roving gypsies, becoming probably as beautiful and touching a character in her supreme love of living thing of wood and stream as has ever been portrayed upon the screen. At the same time the role is distinctly amusing, and it would be hard to conceive anything funnier than her return to society as represented by Lord Leigh's manor. The novelty of electric light switches which push on an off, fickle shower baths and hardwood floors which yield a beautiful sliding surface for a rug-craft are comedy opportunities of which Miss Ulrich takes full advantage. Tomorrow matinee and night the greatest of all war pictures, "On the Firing Line With the Germans" will be shown.

The Gem offers a three part drama "The Millionaire Paupers" for the first picture tonight. Grace Thompson and Arthur Shirley are featured. It is said to be a fine picture. In addition to this a one reel comedy will be shown. It is entitled "The Rise and Fall of Officer 13." Lee Moran and Billie Rhodes are featured. Tomorrow matinee and night the fifth episode of "The Girl and the Game," will be shown.

# SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidney active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

### Women and Her Club

Occasionally we hear a fellow make a jocular remark about women's clubs. He shouldn't do it. He's in the wrong pew.

Women's clubs are a good thing when properly conducted, just as are the clubs to which men belong.

In olden times much of the visiting was done across the garden fence, but today it is different. Women are more mentally developed today than they were fifty or a hundred years ago, and their knowledge naturally craves an outlet and an opportunity for expansion.

The club is the medium for both.

A good, up-to-date, progressive woman's club, does a lot of good. It is a source of enjoyment to the women of the community, for it brings them into closer touch with one another and enables them to discuss and take measures to cope with the many problems that face our social, municipal and commercial life.

When a body of women get together, each with some idea for the betterment of political or social conditions, the best that is in them collectively will come to the front and will serve to broaden and develop the moral and material welfare of the community. Women have brains and possess the ability to apply them when afforded an opportunity.

There are many things a progressive woman's club can do. Such an organization exerts a wonderful influence for good.

When our women champion a cause, that cause is invariably a just and righteous one.

### Undyed Hats.

From Danbury, Conn., the hat capital of America, comes word that uncolored headgear will be the rule for men this year.

The explanation is that there are no more dyes to color hats with. But Danbury needn't give any excuses. The nation will be so glad of a little relief from the recent color wave that any "lids" turned out in the natural hue of the animal that wore them originally will be welcomed with gratitude.

We presume that most hats may be traced back, directly or indirectly, to sheep. We have seen sheep attired in white, gray and brown but never a blue sheep, nor a purple sheep, nor an emerald or lavender or fawn-colored sheep, nor any other of the various weird colors inflicted on the public the last season or two by hit-makers and haberdashers in collusion with young men of reckless taste. If those Easter-egg gents' hats were due to German dyes, and if the manufacturers would continue the same outlandish styles if they could get the colors, then we're reconciled to the aniline embargo. Anyhow, gray hats are good enough for anybody, and much safer for most types of masculine beauty.

Politely speaking, in the matrimonial market money is the connecting link between the cradle and the grave. In vulgar English, it enables a doddering old Millionaire buck to buy a doll faced chicken for a wife.

Every loyal citizen should patronize the home merchant whenever possible. And the loyal merchant should demonstrate his own business sagacity by advertising. A rule is not a rule unless it proves itself.

There's a fellow we know who is so grouchy he'd growl about the weather if it rained silver dollars. He'd want 'em to be gold.

The horse never travels faster than its own tail, and the merchant keeps pace usually with the quality and quantity of his advertising. You can always tell.

Villa has been killed so many times the public will not believe it when the cuss really does stretch hemp.

Spread the good cheer to others. It may warp your own face into a smile.

## SUFFS START TOUR OF APPEAL

"Flying Petticoat Squadron" Will Make Tour of Country in Effort to Get Help.

### CHICAGO IS FIRST STOP

Say it is Not Only a Missionary

Trip But is to Show the Politicians Who Oppose Them.

(By United Press.)

Washington, April 10.—At the conclusion here Sunday of the convention of the Congressional Union For Woman Suffrage, the "Flying Petticoat Squadron" of 36 nationally known suffrage orators from non-suffrage states scooted Chicago on the first leg of their nationwide tour of appeal to the men and women voters in pro-suffrage states.

This \$50,000 stump-speech tour of the whirlwind girls will, it might be said, be a sort of suffragistic cry from Macedonia. They will be on the jump for 38 days, visiting 24 western cities. Their motto will be "Fifty-Fifty Or Fight! You Vote For Us And We'll Vote For You!"

Chicago is to be the first stop for the delegation. The party left Washington Sunday and reached Chicago Monday afternoon. From Chicago they will go to Kansas City, thence to Topeka, where Governor Capper and state officials will be waiting for them; then to Wichita, Kan., Denver, Colorado Springs, Williams, Grand Canyon, Prescott and Phoenix, Ariz.; Los Angeles, San Francisco; Reno and Carson City, Nevada; Sacramento, Calif.; Salem, and Portland Oregon; Seattle, and Spokane, Washington; Great Falls, Helena and Butte, Montana; Pocatello, Idaho, and Ogden and Salt Lake City, Utah.

April 15, half of the delegation will visit Cheyenne, Wyo. This plan also will be followed on May 9 at Boise, Idaho.

At Salt Lake City a convention will end the trip. The convention is slated to be "the largest and most spectacular ever held in the interest of suffrage." The party will return to Washington May 17.

Plans for the tour are simple and direct. The delegates are to go right out in the home of suffrage, in the suffrage states and organize every feminine voter. The consolidated voters—the plan is—will all vote together. And they won't vote for anybody, for dog-catcher, sheriff or president, who won't vote to give the rest of women of the country the ballot.

Although the delegates are to be apportioned by states: one each from the thirty-six benighted, medieval non-suffrage states, these members, famous among suffragists for their speeches, are declared to be sure winners:

Miss Ella Riegall, of Philadelphia, in charge of the expedition; Mrs. Helena Hill Weed, who has charge of the schedule of meetings; Mrs. Harriet Stanton Blatch, head politician of the Union; Miss Anna Constable of New York; Mrs. John Rogers of New York; Mrs. Mina Van Winkle, of Morristown, president of the New Jersey Woman's Political Union, and Mrs. Florence Bayard Hilles, of Wilmington, chairman of the Delaware branch of the Union.

It will be about the first occasion on record where communities struggling along in the dark—as the suffragists frankly admit the thirty-six states mentioned—are have sent missionaries to progressive, enlightened sections. They won't go on a strictly missionary trip, though; they play to declare war on back-sliding politician and see that they climb on the bandwagon or get rolled under its wheels.

## SHORTAGE OF CAVALRY HORSES

Trouble in Mexico Brings Out Statement That Good Animals Are Hard to Secure.

### EUROPEAN BUYERS ARE BUSY

Remounts Needed in Real Campaign Work Are Not to be Found—Problem Might be Grave.

(By United Press.)

San Antonio, April 10.—The European war has stripped the United States of good horses that today U. S. army officers have admitted a serious shortage of cavalry remounts.

General Funston has combed Texas bare of cavalry animals.

St. Louis, Kansas City Atlanta, Chicago and smaller horse markets now are being investigated by army officers in the hope of obtaining a sufficient supply in a hurry. Here also, however, the army men found that the buyer for the warring nations of Europe had preceded them.

American cavalry regiments are reported to be short now of remounts needed in real campaign work and should many be lost in fighting, the problem would become grave. State cavalry regiments too are reported as generally deficient in cavalry.

This is considered important for, in case the Mexican campaign develops and the need arises to send all the regular cavalry into the southern republic, national guard cavalry regiments probably will be the first to be called for border patrol work.

# PREPAREDNESS AS PREVENTATIVE

Lessons Teaching How Free Democracy Can Become Great Military Power Transmitted

IN MOVING PICTURES OF WAR

Most Realistic Events in Connection

With Immense Conflict Will be Seen at Princess

Preparedness as a preventative is the opinion of all in the United States. That Germany is America's schoolmaster in the art of war and practical patriotism is the sentiment agreed upon by military men and leaders in preparedness movement—

The lessons teaching how a free democracy can become a great military power, terrible in defense of its liberties are being transmitted, say these men through the Durborough war pictures which the Daily Republican will present at the Princess theater tomorrow.

That they should be seen by every American is a slip in his modern education—which it is to include a realization that war is horrible—and that preparedness is one way to prevent a recurrence of such horrors—"On the Firing Line with the Germans," as taken by Wilbur H. Durborough in the thick of the battle, has been sanctioned and authorized as the only authentic and authoritative film ever to leave Berlin with the official stamp of the German Imperial Government. In viewing these pictures one becomes entirely absorbed in the startling realism taken at points no private photographer would have dared to penetrate or would have been permitted to reach it, foolhardy enough to try. These pictures are the first pictures that show a perfectly clear view of the soldiers actually fighting and driving the work on the eastern front. The Durborough pictures have a two fold educational value—they present a vivid portrayal of actual scenes and give the laymen an understanding of the things this country needs—in order to meet the onslaught of a modern war. Observation and combat aeroplanes, balloons, armored automobiles, collapsible towers and other things in the moving pictures make one marvel at the completeness of modern fighting machinery, makes us realize how helpless is our own country.

In witnessing these pictures you are taken into the field kitchens, and the armored auto trains, which plow through all obstacles. It is a chance to meet the genial Kaiser and his Imperial family and all the prominent generals, and after you see them reflect on what is required of a nation before it can justly say it is ready to meet an army enemy.

These pictures reveal war as it really is not only a conflict of thrills and horrors, but a cold calculating vastly technical business and you can not afford to miss seeing it.

### COMFORTING WORDS

Many a Rushville Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Rushville readers.

John Heany, 616 W. 3rd St., Rushville, says: "A short time ago I began to have trouble with my kidneys. The secretions passed too frequently both day and night, obliging me to get up several times. They were also highly colored and filled with sediment. My back was weak and lame too. I used Doan's Kidney Pills, procured at Johnson's Drug Store, and they relieved me a great deal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Heany had. Foster-Milburn Co., Props., Buffalo, N. Y.

The ladies of the Pocahontas will assist in the affair which promises to be a social success.

### FOR MISS LORE

The seventeenth birthday of Miss Mildred Lore was honored by several of her friends Saturday evening when a surprise dinner was given for her at the home of Miss Axie Retherford in West Fifth street. In response to Miss Retherford's invitation, Miss Lore merely dropped in for a few minutes and was greatly surprised to see the prettily set table and the elegant pitch-in dinner, which the guests later enjoyed. Cut flowers were used in the decorations. Those who executed this successful surprise were the Misses Naomi Craig, Sylvia Mullins, Madolion Cooring, Dorothy Wright and Axie Retherford.

### IN NEW HOME

The first affair given in their spacious new home near Raleigh was the dinner given by Mr. and Mrs. B. F. Martin for a number of their friends. Carnations were the pretty table decoration used at the festive board where the guests were seated to enjoy the delicious three course turkey dinner. Beautiful musical numbers aided in the pleasure of the afternoon when solos, duets and trios were played by Mrs. Russel Baker at the piano, Miss Loraine Thompson and Albert Smullen on the saxophone. The guest list included Mr. and Mrs. Charles Elwell and son, Horace, Mr. and A. L. Kennedy, Mr. and Mrs. Amos Glidden, Mr. and Mrs. Eli Martin, Mr. and Mrs. Russel Baker, Ralph Elwell, Miss Loraine Thompson, of Falmouth, Mrs. Maria Smullen and son Albert, Mrs. Lily Ray and son, Albert.

The members of the Monday afternoon Five Hundred Club enjoyed a pleasant time together this afternoon as the guests of Mrs. Hillary Haydon at her home in North Main street. Cards were the main diversion of the affair.

### SURPRISE PARTY

Mr. and Mrs. John Hankins of near Andersonville entertained a number of relatives and friends Sunday at a surprise party in honor of the 84th birthday of Mr. Hankins' father. An elegant three course dinner was served to the guests who enjoyed an evening of music and games. In this pleasant company were Mrs. Sollon Lee and daughters Gladys and Frances, Mrs. Nellie Schibler and family, Mr. and Mrs. Laury Hankins and family, all of Milroy, Mrs. Lige Hankins and family of this city, Mrs. Nora Murphy and family, Mort Hankin, Mrs. Theodore Walker, Mr. and Mrs. G. G. Hankin, and Frank Rickman, of Andersonville.

### SURPRISE PARTY

The birthday of Charles Kennedy of Mays gave a number of his relatives an opportunity to surprise him and his family yesterday. After making the trip in automobiles, the guests arrived about noon. Shortly the contents of their baskets had filled the table for the bountiful dinner which was served. The guests remained for the pleasant afternoon together and the day closed with an informal supper party. Those who cleverly planned and executed this affair honoring Mr. Kennedy were Mr. and Mrs. Harry McMillin and children, Mildred and Richard, Mr. and Mrs. E. L. Kennedy and sons, John and Karl, Mr. and Mrs. Lon Kennedy and son, Weldon, and Mr. and Mrs. Herman Tompkins and son, John K.

### NEWS OF INTEREST TO COLORED PEOPLE

Honoring Miss Ora Skelton of Indianapolis, Mr. and Mrs. H. L. Bundrant entertained a number of their friends Sunday afternoon. The rooms were prettily arranged in white and pink roses. The color scheme was used throughout the dainty three-course luncheon which was served. The guests were the Misses Sophronia Ferguson, Fannie Ramey, Ora Skelton and Roy Evans Luther Ramey and Mrs. Myrtle Hinton, Mr. and Mrs. Wilson Bundrant.

An exchange and penny supper will be given at the Methodist church on Friday afternoon and evening. Every lady in the church is asked to give one article for the bazaar, which will be managed by the 1st and 2nd divisions of the Aid society. The supper will be served by the 3rd division. Everyone invited. 24t1.

## YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N. Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 528 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, headache, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs help, write her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

## BUILDING BOOM STARTS

Two Residences and Two New Buildings Begun at Milroy.

A building boom of no small proportions started in Milroy today. Work was started on tearing down the old Odd Fellows building which will be replaced by a new, modern building, and the wrecking of the Christian church was begun. The old church will be replaced by a \$15,000 structure. Work was also started today on two new modern residences in the new addition to the east of Milroy. One of the houses is being built by Frank McCorkle and the other by Chris King.

### TWO IN POLICE COURT

Roy (Splee) Morrison, colored, and Frank Joyce were arraigned before Mayor Bebout this morning on charges of public intoxication. Both entered pleas of guilty and were fined one dollar and costs. In default both went to jail for eleven days. Joyce was arrested Saturday night and Morrison Sunday.

# NEW LAW DIDN'T PREVENT PANIC

Financial Relief at Outbreak of War Made Possible Through Emergency Currency Bill

## COMMISSION GETS CREDIT

Republicans Claim Some Credit Because Old Measure Was Incorporated in New One.

Washington, April 10.—The Republican Publicity Association, through its president, Jonathan Bourne, Jr., today gave out the following statement at its Washington headquarters.

"In view of the fact that Democratic speakers and writers have frequently made the assertion that it was the Federal Reserve System that saved the finances of the country during the threatened panic immediately after the outbreak of the European war, it is as well that the people of the country keep a few definite facts in mind.

"Although the Federal Reserve Act was passed in December, 1913, the Federal Reserve System had not been placed in operation at the time of the outbreak of the war, July 31, 1914. This fact is stated by Secretary of the Treasury McAdoo, in his annual report for the fiscal year 1914. After expressing satisfaction over the manner in which business came through that test, Mr. McAdoo says:

"This has been accomplished notwithstanding the fact that the Federal Reserve System authorized by the act of December 23, 1913, was at that time only in process of formation and was, therefore, unable to render any service in the situation."

"The financial relief afforded the banks of the country was in the form of emergency currency, issued and distributed under the provisions of what is commonly known as the Aldrich-Vreeland Emergency Currency Act, enacted in 1908. That Act was continued in force, the only change therein made by the Reserve

Act being a small reduction in the rate of taxes to be paid upon the emergency currency.

"In addition to these facts regarding the manner in which a panic was averted, it is also well to remind Democratic speakers and writers that the Federal Reserve Act, is not the product exclusively of Democratic statesmanship, but was very largely a result of work that had been done by the Monetary Commission created in 1908. Without going into an extended discussion of the influence of the work of the Monetary Commission upon the Federal Reserve Act, brief quotations from the New York Times—a paper not unfriendly to this Administration—will sum up the facts. In an editorial on December 24, 1913, the day after the enactment of the Federal Reserve Law, the Times said that the National Monetary Commission had fostered and developed a public sentiment for currency reform. 'In fact, the ground was prepared by the Commission for the legislation that has just been enacted, and the Owen-Glass Bill contains some of the principal features of the Aldrich Bill, described in part in almost the same language.'

"Upon signing the bill, President Wilson attempted to give credit therefor to his party alone, ignoring the fact that the bill in its original form was faulty in the extreme. The Times recognized the injustice of that partisan claim, and on December 25th, 1913, said:

"Surveying the process from introduction to enactment, the result was a fundamental transformation of the bill. But for the continued, powerful and effective influence of public opinion we can hardly doubt that the measure would have been so faulty that its acceptance by the banks would have been exceedingly doubtful, its success improbable."

"In the Administration of the law the party in power has been not only partisan but influenced by local interest. There is no disposition on the part of Republicans to deny to the Democratic party any credit to which it may be entitled for the enactment of the Federal Reserve Law faulty though its sponsors now admit it to be. But while conceding to the Democratic Administration any credit to which it may be entitled in the enactment of the measure, Republicans can very appropriately and justly point to the service rendered by Republicans."

# HAS WAY TO RELIEVE GASOLINE FAMINE

Head of Forest Service Tells How to Convert Sawdust into Alcohol and Help Conditions.

## YIELD INCREASED 25 PER CENT

Washington, April 10.—The story of the conversion of sawdust into alcohol, at a cost of from 13 to 15 cents, and the relief thereby of the gasoline famine in the automobile industry is told in scientific form in a survey of the work of the federal forest products laboratory at Madison, Wisconsin. This survey has been prepared by head of the forest service, Henry S. Graves, to show some of the characteristic work of the laboratory, in view of the proposal to increase the appropriation for its experiment and investigations. Mr. Graves' review of the work, as sent to the senate by the secretary of agriculture includes the following memorandum on Improvements in Process of Destructively Distilling Hardwoods.

"It is this industry that supplies the country with wood alcohol, acetate of lime and charcoal. It consumes annually over 1,000,000 cords of wood, valued at approximately \$3,150,000, and produces products valued annually at \$10,000,000. Laboratory tests have developed a method, involving practically no outlay for additional apparatus or material and no increase in the time of operation, which has increased the yields of alcohol 25 per cent and of lime 10 per cent. Universally applied this would mean an annual increase in value from the raw material of approximately \$1,150,000."

If your skin is yellow—complexion pallid—longue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results.

## Mothers! You can Save Money on Boys' Clothing

Mothers often buy their boys the lowest-priced suits they can find believing this to be the most economical way, but it is not actually the case

A garment cheaply or carelessly made gives out at some or all points so much sooner than the one thoroughly made that frequently two of the poorly made suits are worn out during the life of a good one.

Perhaps the good suit will cost more, but not twice as much. Therefore, in the course of a few months you have actually saved money on the better suit.

**Of All Boys Clothing Xtragood  
Has the Better Making**

A large choice of fabrics in single and double-breasted Norfolds. Some box-plaited; nifty patch pockets on others; belts one and three-piece and extra trousers if you desire.

XTRAGOOD is made on a plan of double reinforcement of all wear-points. The pockets are extra-staid, trousers are full-lined with the best of strong twill lining. Collars are hand-felled, and the front and shoulders tailored carefully so that they will not readily wrinkle or lose their shape. It not only gives longer wear service, but during the time of wear maintains the stylish appearance of a new garment.

This extraordinary care throughout the production of XTRAGOOD results in better style appearance and greater satisfaction during wearing-time than can be obtained from ordinary clothing.

Suit Against John Boyd Goes on  
Another Venue Change

The suit of Alexander M. Crawford and Chester A. Scott against John A. Boyd, on an account for damages, has been sent to Marion county for trial by Judge Blaik of the Shelby circuit court. The case was originally filed here and a change of venue taken by the plaintiffs. The present change was taken by the defendant. The suit involves the sale of some Jersey cattle by Mr. Boyd to the plaintiff. The sale was made in Chicago at the time of the foot and mouth disease epidemic and the complaint alleges that they were damaged because the cattle could not be delivered to them. **Special Judge Austill of Anderson**  
Hears Arguments in Binford Estate Suit

The plaintiff's side of the case of Thomas Trackwell, administrator of the estate of the late Mrs. Samantha J. Shoup against Mrs. Maggie Irvin, Chester Heck, and Susie Brown, closed at noon today and the defense started introducing evidence.

Indications are now that the case will end sometime Wednesday, probably late Wednesday afternoon. The defense has thirty witnesses and it is expected to require all of this time to get the evidence before the court. Mr. Trackwell, the plaintiff, a resident of Marion, Ind., was on the stand all of Saturday afternoon and for over three hours this morning. The case is for an accounting and the details of the gold fish business carried on by the defendant at Waldron were gone into extensively.

Just before the evidence of the plaintiff was closed Erastus McDaniel and Conner D. Ross, two of the attorneys for the plaintiff, took the stand and told of serving notice on the defendants shortly after the administrator was appointed telling them to turn over the books and accounts of the firm of Shoup and Heck.

While this case was going on in the large court room, H. Clarence Austill, judge of the Madison superior court, was hearing the argument on the issue in the case of Harry M. Hudson against the estate of the late Jared P. Binford, in the smaller court room. Judge Austill qualified as special judge. Judge Blair was first appointed but could not serve. The case is a claim in which \$7,000 is demanded. The action is brought against the administratrix, Ella McIlvaine. The defendant was ordered to produce certain books and papers at the clerk's office by tomorrow morning at 8:30 o'clock.

Judge Raymond Springer was appointed special judge to try the case of Leonidas W. Keisling against Thomas E. Bortoroff and the Enterprise Milling Company of Milroy this morning by Judge Sparks. The suit is for an accounting in which \$10,000 is demanded.

The case of Herbert Rickett against Cleo Emsweller to foreclose a mechanics lien was dismissed and the costs paid.

## MOTORCYCLE COP ON JOB

**City is Prepared to Chase Down**  
Speed Law Violators

The motorcycle cop became a reality today in Rushville. The machine ordered sometime ago by Policeman Price arrived and was being tuned up ready for business. It is believed that with the aid of the motorcycle the practice of speeding will be broken up as these offenders will be watched closely. Price was recently given \$10 a month for the upkeep of the machine by the city council. The police have issued warning after warning against speeders but the practice continued, and now the police are equipped and promise some business for Mayor Bebout.

**Oscar Stewart Pays Fine For At-**  
tacking Sanford Heaton

Oscar Stewart pleaded guilty to an assault and battery charge this morning in Squire Kratzer's court and was fined one dollar and costs, amounting in all to \$10.75. The charge against Stewart was filed by his brother-in-law Heaton. The trouble is said to have grown out of an argument over the possession of a child of the late Riley Stewart and a fight followed. The trouble occurred yesterday at the Heaton farm, southeast of the city.

**County Weather Observer Shows**  
That March Established no  
New Extremes Either Way.

## OBSERVATIONS FOR 36 YEARS

March, 1916 will go down in history as the usual kind of March that neither comes in like a lion nor goes out like a lamb, or vice versa, according to the report of Elwood Kirkwood, county weather observer, whose observations for a 36-year period show that none of the extremes of the period were reached last month.

The maximum temperature for the period was 86 degrees, recorded in 1910, which is far in excess of any temperatures last month. The normal temperature for 36 years was 39.6 and the minimum five below, registered in 1884. The maximum daily range was 45 degrees and the minimum 28, showing a wide variance in temperature in the usual March day.

The total rainfall during March for 36 years was 141.29 inches. The maximum monthly rainfall was 12.08, the record for 1913. The minimum was .04 of an inch, which was noted in 1910. The largest number of rainy days for March was 19—in 1898, and the smallest number was in 1910, when there were two. The total snowfall for March in 23 years was 230.7 inches, which makes the average snowfall for the month 4.7 inches. The maximum snowfall was in 1906, when there was 25.5 inches.

## SHELBYVILLE MAN BUYS JACKSONIAN

**Louis Holtman, Who Bid on Plant**  
at Sheriff's Sale, Takes  
Possession Today

## PRICE IS SAID TO BE \$2,000

A deal was closed Saturday whereby Louis Holtman, a veteran newspaperman of Shelbyville became the owner of the plant of the Daily Jacksonian. Mr. Holtman took possession today. The consideration is said to have been \$2,000.

The sale was made by the stockholders, who recently bid the plant in at the sheriff's sale. At the time of the sale Mr. Holtman and his attorney, Thomas Campbell, appeared here and submitted a bid for the plant. The former owners of the plant outbid them and again secured control of the Jacksonian. Since buying the plant they have reconsidered the matter and decided to sell to Mr. Holtman.

The linotype machine involved in the sale is still held by the linotype company.

## COUNTY ABLE TO GET ASSISTANCE

**Suggested Engineer From U. S. De-**  
partment of Public Roads  
Would be Helpful Now.

## NEW HIGHWAYS TO BE BUILT

**Applications May be Obtained in**  
Which County Shows Why it  
Needs Some Advice

If Rush county wants any scientific advice when it gets ready to build some of the permanent highways that are likely to be put in during the next year it can get a highway engineer from the office of public roads and public engineering, United States department of agriculture.

It has been suggested that an engineer would be doubly welcome here since Rush county is intensely interested just now in the question of permanent materials for the country highways. It is admitted that one of the important features of permanent highways is to make sure that they are constructed properly. The office of public roads sends out applications so that counties can follow the proper form in asking for assistance.

The application is addressed to the Director of the office of Public Roads and Rural Engineering and says: "We hereby make application for the assignment of a highway engineer to co-operate with us in the improvement of the public roads of this community, it being understood that the salary and the expense of the engineer assigned shall be paid by, and all necessary surveying instruments will be furnished by, the Office of Public Roads and Rural Engineering. In case any roads are constructed under the provision of the engineer assigned, we will furnish all labor, teams, tools, machinery, and materials necessary for the work of construction; and in case a survey of a road is made, we will furnish all necessary assistants."

Engineers will be assigned, when available, to co-operate with road officials as follows:

To superintend the construction of a section of road of sufficient length to demonstrate proper methods of construction.

To make a survey of, and prepare plans and specifications for, improving road of moderate length.

To make a study of the whole county or district for the purpose of planning a system of roads that will best serve the county or district, or for the purpose of making a report on the proper method of improving a designated system of roads and how best to finance the improvement.

To inspect any particular road and give advice relative to its improvement.

Blanks are provided to show when and why the engineer should be assigned and where he should report. The signatures of the officials in legal control of the roads must be appended to the petition.

With reference to the construction of new roads, the following questions are asked by the federal department:

"What length of road do you desire our engineer to supervise the construction of? What funds are available for constructing it? What kind of road do you desire to have built? (Earth, gravel, macadam, etc.) Are the materials for the road surfacing available locally or must they be shipped in? What kind of road building machinery will be available? Will you provide for the maintenance of the road, in accordance with the instructions of the engineer?"

## LINES ARE EXTENDED ALSO

**Villa is South of Durango State Line**  
Which is Reported "Dead Line"  
For Troopers

By E. T. CONKLE  
(U. P. Staff Correspondent.)  
El Paso, Texas, April 10.—Reinforcements and supplies for the American expedition continued to pour into Mexico today as if there was no prospect of withdrawal soon. Activities bent on catching Villa were speeded up here also in the purchasing and forwarding of supplies.

To keep pace with the rapidly lengthening line of communications the wireless stations at Namiquita has been moved further south. The field telegraph already extends to Galeana. In the meantime, Villa was south of the Durango state line which rumors persist, is the "death line," beyond which President Wilson is reported to have promised Carranza the United States forces will not pursue Villa.

## TO STRENGTHEN LINES

(By United Press.)  
San Antonio, Texas, April 10.—General Funston announced today that the lines between General Pershing's swiftly advancing front and the border will be strengthened at once and that the Columbus base will be retained.

Tentative plans for the removal of the Columbus base to a point farther south on the border have been abandoned.

Among the new troops to go south will be the detachment of the Twenty-fourth infantry (colored) which had trouble with citizens at Del Rio Texas last night, resulting in the killing of a negro trooper by a state ranger.

"I have ordered the transfer of the negro troops at Del Rio to duty on the lines of communication in Mexico," stated Funston. "We'll let them work off their excess energy down there."

## 24 HOURS BEHIND VILLA

(By United Press.)  
El Paso, Texas, April 10.—Hanging doggedly to Villa's trail, the United States cavalry was today in the desolate Sierras around Parral. At least 24 hours march ahead of his pursuers, Villa with 200 men and fresh mounts, was at a mining camp in Durango state.

That Villa is fleeing at top speed to join the Arrieta Brothers who have 3,000 followers around Durango City, was the information sent to the border by officers of the American Mining company at Parral. Villa passed Parral on Saturday.

Brenner Were Not Aware of  
Each Other's Plight

## BOTH ARE SERIOUSLY ILL

Lying in rooms side by side in the Deaconess hospital in Indianapolis, one undergoing an operation immediately after the other and neither knowing of the other's plight—such is the sad story of Miss Mary Marlatt of this city and her sister Mrs. Ivan Brenner of Winchester. Both operations were performed last Friday and from that time until Sunday their brothers, Ernest and Earl Marlatt, and brother-in-law, J. H. Scholl were at the hospital, awaiting the result of the operations.

Mrs. Brenner's operation was for a sudden but not so serious complications, and she is expected to recover rapidly, but Miss Mary Marlatt, who taught school at Arlington until she went to the hospital, has been taking treatment for a month preparatory to the operation. She went with the intention of having the surgery performed immediately, but owing to her condition the surgeons refused to operate until she had passed through a course of treatments. It is announced that Miss Marlatt recovered from the effects of the ether Friday and this morning her condition was slightly improved. It is stated, however, that the outcome of her illness is decidedly uncertain and the physicians will not be in a position to offer any positive information for several days.

## BERNSTORFF MEETS LANSING

**Action May be Delayed Until Thurs-**  
day Because of Non-Arrival

(By United Press.)  
Washington, April 10.—German Ambassador Bernstorff requested and was granted a conference with Secretary Lansing for this afternoon, presumably to discuss the Sussex case.

Ambassador Gerard cabled the state department today that he expected to receive a note from the German government today replying to the query as to whether a German submarine attacked the Sussex. The liner St. Paul, bringing affidavits that will form an important part of the evidence in the Sussex case is now likely to arrive until Thursday, instead of today as expected. This may prevent decisive administration action that was due to follow tomorrow's cabinet meeting.

The nature of this government's evidence in the Sussex case continues to be a secret. It was described today, however, by high authority to be "strong enough to convince the president and Secretary Lansing that a German submarine attacked the vessel but perhaps not conclusive enough as it stands to warrant the breaking off of diplomatic relations."

In the cases of four other vessels torpedoed within the last two weeks, about which this government inquired of Germany, Berlin declares there was no violation of its assurances to the United States, according to press reports from Berlin.

## **BAKER DEFENDS AVIATOR CORPS**

Secretary of War Takes Stand against Manufacture of Aeroplanes by Government.

### **HIS ANSWER TO THE INQUIRY**

(By United Press.) Washington, April 10.—The army aviator corps will be reorganized and the personnel changed by "addition, if not by subtraction," Secretary Baker told the house military committee. This was regarded as his answer to the question that will result from the war department's extended investigation into the service.

The secretary defended the aviator corps, spoke against government manufacture of aeroplanes, urged enlistment of civilian aviators and asked for an expenditure of ten million dollars in the next four years on aeroplane development.

"A great deal of criticism of the aviation service has been resulted from the enthusiasm of the men in their various departments," Baker said. "I am entirely satisfied that the investigation of the aviation service will enable me to establish highly satisfactory conditions."

## **MORE DRINKING AMONG WOMEN**

It is Declared Soldiers' Wives in England Drink Heavily Since the War Started.

### **NEW REGULATIONS PLANNED**

Considered License For Man Who Carries Bottle of Whiskey in His Pocket.

BY CHAS. P. STEWART.  
(U. P. Staff Correspondent.)

London, April 10.—A plan is being considered in England today to compel a man who wants to carry a bottle of whiskey in his pocket to take out a license. It isn't likely the scheme will be adopted but it illustrates the trouble the government is having in its attempts to regulate the country's personal habits.

Present English saloon regulations were adopted as a war measure. The intention was to reach two particular classes of people—makers of munitions and other military necessities and the wives of soldiers at the front.

The authorities contended early in the war that excessive drinking by the munition workers was lowering their output. Then came the complaint that soldiers' wives were drinking too much. These women received from the government what are known as "separation allowances," varying somewhat with circumstances, but amounting approximately to from \$3 to \$4 weekly.

The sum, though small according to American standards, was liberal from the viewpoint of many English workmen. They also received it paid into their own hands, instead of being dependent on what their husbands had previously seen fit to give them. It was charged that numbers of them spent far too large a proportion of it for alcoholic refreshments.

The upshot was a regulation restricting liquor-selling daily to two hours and a half, beginning with noon, and to three hours, beginning with 6:30 p. m.

Employers complained that unless they set the luncheon hour for their help later than 2:30 p. m. many workers returned fuddled for their afternoon's duties.

Housewives were bitterly dissatisfied at the epidemic of failures by their husbands to return from work until 9:30 or a little after, for dinner.

Indications are that there has been a falling off among those on whom the drinking habit had no very tight grip, but certainly no decrease and perhaps the contrary, on the part of confirmed habitués.

## **Tender Teeth—the first sign of Pyorrhea**

See your dentist twice yearly. Use Senreco twice daily.

When you brush your teeth, does it feel as though you were brushing against the quick? Do the gums sometimes bleed? This is because pyorrhea has caused the gums to pull away from your teeth, leaving the unenamelled surfaces unprotected.

Your dentist will tell you, if you ask him, that you have gum recession, and that gum recession is caused by pyorrhea.

Unchecked, pyorrhea will warp and shrink and deform the gums. It will break down the bony structure into which the teeth are set—and you will eventually lose them. To save your teeth you will have to begin to fight this dread disease at once.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your

teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santal Remedies Company 503 Union Central Building, Cincinnati, Ohio.

## Amusements

The Mystic will show a four act feature "The Coquette" for the program tonight. Rea Martin is featured and it is said to be a fine production. Tomorrow matinee and night the five act feature "The Miracle of Life" will be shown. Margarita Fischer and Joseph Singleton are featured. It is a picturized preachment against race suicide and comes highly endorsed.

The Princess offers the five reel feature "Kilmeny" for the program tonight. Lenora Ulrich, the star of "The Bird of Paradise" is featured. "Kilmeny" a child of aristocratic parentage who grows up from six to eighteen with roving gypsies, becoming probably a beautiful and touching a character in her supreme love of living thing of wood and stream as has ever been portrayed upon the screen. At the same time the role is distinctly amusing, and it would be hard to conceive anything funnier than her return to society as represented by Lord Leigh's manor. The novelty of electric light switches which push on an off, fickle shower baths and hardwood floors which yield a beautiful sliding surface for a rug-craft are comedy opportunities of which Miss Ulrich takes full advantage. Tomorrow matinee and night the greatest of all war pictures, "On the Firing Line With the Germans" will be shown.

The Gem offers a three part drama "The Millionaire Paupers" for the first picture tonight. Grace Thompson and Arthur Shirley are featured. It is said to be a fine picture. In addition to this a one reel comedy will be shown. It is entitled "The Rise and Fall of Officer 13." Lee Moran and Billie Rhodes are featured. Tomorrow matinee and night the fifth episode of "The Girl and the Game" will be shown.

## SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then back hurts and bladder bothers you.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and all misery in the kidney region, severe headache, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidney active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

### Women and Her Club

Occasionally we hear a fellow make a jocular remark about women's clubs. He shouldn't do it. He's in the wrong pew.

Women's clubs are a good thing when properly conducted, just as are the clubs to which men belong.

In olden times much of the visiting was done across the garden fence, but today it is different. Women are more mentally developed today than they were fifty or a hundred years ago, and their knowledge naturally craves an outlet and an opportunity for expansion.

The club is the medium for both.

A good, up-to-date, progressive woman's club, does a lot of good. It is a source of enjoyment to the women of the community, for it brings them into closer touch with one another and enables them to discuss and take measures to cope with the many problems that face our social, municipal and commercial life.

When a body of women get together, each with some idea for the betterment of political or social conditions, the best that is in them collectively will come to the front and will serve to broaden and develop the moral and material welfare of the community. Women have brains and possess the ability to apply them when afforded an opportunity.

There are many things a progressive woman's club can do. Such an organization exerts a wonderful influence for good.

When our women champion a cause, that cause is invariably a just and righteous one.

### Undyed Hats.

From Danbury, Conn., the hat capital of America, comes word that uncolored headgear will be the rule for men this year.

The explanation is that there are no more dyes to color hats with. But Danbury needn't give any excuses. The nation will be so glad of a little relief from the recent color wave that any "hats" turned out in the natural hue of the animal that wore them originally will be welcomed with gratitude.

We presume that most hats may be traced back, directly or indirectly, to sheep. We have seen sheep attired in white, gray and brown but never in blue, green, nor a purple sheep, nor an emerald or lavender or fawn-colored sheep, nor any other of the various weird colors inflicted on the public the last season or two by hat-makers and haberdashers in collusion with young men of reckless taste. If those Easter-egg gents' hats were due to German dyes, and if the manufacturers would continue the same outlandish styles if they could get the colors, then we're reconciled to the aniline embargo. Anyhow, gray hats are good enough for anybody, and much safer for most types of masculine beauty.

Politely speaking, in the matrimonial market money is the connecting link between the cradle and the grave. In vulgar English, it enables a doddering old Millionaire buck to buy a doll-faced chicken for a wife.

Every loyal citizen should patronize the home merchant whenever possible. And the loyal merchant should demonstrate his own business sagacity by advertising. A rule is not a rule unless it proves itself.

There's a fellow we know who is so grouchy he'd growl about the weather if it rained silver dollars. He'd want 'em to be gold.

The horse never travels faster than its own tail, and the merchant keeps pace usually with the quality and quantity of his advertising. You can always tell.

Villa has been killed so many times the public will not believe it when the cuss really does stretch hemp.

Spread the good cheer to others. It may warp your own face into a smile.

## SUFFS START TOUR OF APPEAL

"Flying Petticoat Squadron" Will  
Make Tour of Country in  
Effort to Get Help.

### CHICAGO IS FIRST STOP

Say it is Not Only a Missionary  
Trip But is to Show the Poli-  
ticians Who Oppose Them.

(By United Press.)

Washington, April 10.—At the conclusion here Sunday of the convention of the Congressional Union For Woman Suffrage, the "Flying Petticoat Squadron" of 36 nationally known suffrage orators from non-suffrage states scooted Chicagoward on the first leg of their nation-wide tour of appeal to the men and women voters in pro-suffrage states.

This \$50,000 stump-speech tour of the whirlwind girls will, it might be said, be a sort of suffragist cry from Macedonia. They will be on the jump for 38 days, visiting 24 western cities. Their motto will be "Fifty-Fifty Or Fight! You Vote For Us And We'll Vote For You!"

Chicago is to be the first stop for the delegation. The party left Washington Sunday and reached Chicago Monday afternoon. From Chicago they will go to Kansas City, thence to Topeka, where Governor Capper and state officials will be waiting for them; then to Wichita, Kan., Denver, Colorado Springs, Williams, Grand Canyon, Prescott and Phoenix, Ariz.; Los Angeles, San Francisco; Reno and Carson City, Nevada; Sacramento, Calif.; Salem, and Portland Oregon; Seattle, and Spokane, Washington; Great Falls, Helena and Butte, Montana; Pocatello, Idaho, and Ogden and Salt Lake City, Utah.

April 15, half of the delegation will visit Cheyenne, Wyo. This plan also will be followed on May 9 at Boise, Idaho.

At Salt Lake City a convention will end the trip. The convention is slated to be "the largest and most spectacular ever held in the interest of suffrage." The party will return to Washington May 17.

Plans for the tour are simple and direct. The delegates are to go right out in the home of suffrage, in the suffrage states and organize every feminine voter. The consolidated voters—the plan is—will all vote together. And they won't vote for anybody, for dog-catcher, sheriff or president, who won't vote to give the rest of women of the country the ballot.

Although the delegates are to be apportioned by states: one each from the thirty-six benighted, medieval non-suffrage states, these members, famous among suffragists for their speeches, are declared to be sure winners:

Miss Ella Riegul, of Philadelphia, in charge of the expedition; Mrs. Helena Hill Weed, who has charge of the schedule of meetings; Mrs. Harriet Stanton Blatch, head politician of the Union; Miss Anna Constable of New York; Mrs. John Rogers of New York; Mrs. Mina Van Winkle, of Morristown, president of the New Jersey Woman's Political Union, and Mrs. Florence Bayard Hilles, of Wilmington, chairman of the Delaware branch of the Union.

It will be about the first occasion on record where communities struggling along in the dark—as the suffragists frankly admit the thirty-six states mentioned are—have sent missionaries to progressive, enlightened sections. They won't go on a strictly missionary trip, though; they play to declare war on back-sliding politician and see that they climb on the bandwagon or get rolled under its wheels.

## SHORTAGE OF CAVALRY HORSES

Trouble in Mexico Brings Out State-

ment That Good Animals Are  
Hard to Secure.

EUROPEAN BUYERS ARE BUSY

Remounts Needed in Real Campaign

Work Are Not to be Found—  
Problem Might be Grave.

(By United Press.)

San Antonio, April 10.—The European war has stripped the United States of good horses that today U. S. army officers have admitted a serious shortage of cavalry remounts.

General Funston has combed Texas bare of cavalry animals.

St. Louis, Kansas City Aslanta, Chicago and smaller horse markets now are being investigated by army officers in the hope of obtaining a sufficient supply in a hurry. Here also, however, the army men found that the buyer for the warring nations of Europe had preceded them.

American cavalry regiments are reported to be short now of remounts needed in real campaign work and should many be lost in fighting, the problem would become grave. State cavalry regiments too are reported as generally deficient in cavalry.

This is considered important for, in case the Mexican campaign develops and the need arises to send the regular cavalry into the southern republic, national guard cavalry regiments probably will be the first to be called for border patrol work.

## PREPAREDNESS AS PREVENTATIVE

Lessons Teaching How Free Democracy Can Become Great Military Power Transmitted

IN MOVING PICTURES OF WAR

Most Realistic Events in Connection

With Immense Conflict Will be Seen at Princess

Preparedness as a preventative is the opinion of all in the United States. That Germany is America's schoolmaster in the art of war and practical patriotism is the sentiment agreed upon by military men and leaders in preparedness movement.

The lessons teaching how a free democracy can become a great military power, terrible in defense of its liberties are being transmitted, say these men through the Durborough war pictures which the Daily Republican will present at the Princess theater tomorrow.

That they should be seen by every American is a slip in his modern education—which it is to include a realization that war is horrible—and that preparedness is one way to prevent a recurrence of such horrors—"On the Firing Line with the Germans," as taken by Wilbur H. Durborough in the thick of the battle, has been sanctioned and authorized as the only authentic and authoritative film ever to leave Berlin with the official stamp of the German Imperial Government. In viewing these pictures one becomes entirely absorbed in the startling realism taken at points no private photographer would have dared to penetrate or would have been permitted to reach it, foolhardy enough to try. These pictures are the first pictures that show a perfectly clear view of the soldiers actually fighting and driving the work on the eastern front. The Durborough pictures have a two fold educational value—they present a vivid portrayal of actual scenes and give the laymen an understanding of the things this country needs—in order to meet the onslaught of a modern war. Observation and combat aeroplanes, balloons, armored automobiles, collapsible towers and other things in the moving pictures make one marvel at the completeness of modern fighting machinery, makes us realize how helpless is our own country.

In witnessing these pictures you are taken into the field kitchens, and the armored auto trains, which plow through all obstacles. It is a chance to meet the genial Kaiser and his Imperial family and all the prominent generals, and after you see them reflect on what is required of a nation before it can justly say it is ready to meet an army enemy.

These pictures reveal war as it really is not only a conflict of thrills and horrors, but a cold calculating vastly technical business and you can not afford to miss seeing it.

### COMFORTING WORDS

Many a Rushville Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Rushville readers.

John Heany, 616 W. 3rd. St., Rushville, says: "A short time ago I began to have trouble with my kidneys. The secretions passed too frequently both day and night, obliging me to get up several times. They were also highly colored and filled with sediment. My back was weak and lame too. I used Doan's Kidney Pills, procured at Johnson's Drug Store, and they relieved me a great deal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Heany had. Foster-Milburn Co., Props., Buffalo, N. Y.

The ladies of the Pocahontas will assist in the affair which promises to be a social success.

### FOR MISS LORE

The seventeenth birthday of Miss Mildred Lore was honored by several of her friends Saturday evening when a surprise dinner was given for her at the home of Miss Axie Retherford in West Fifth street. In response to Miss Retherford's invitation, Miss Lore merely dropped in for a few minutes and was greatly surprised to see the prettily set table and the elegant pitch-in dinner, which the guests later enjoyed. Cut flowers were used in the decorations. Those who executed this successful surprise were the Misses Naomi Craig, Sylvia Mullins, Madolien Cooing, Dorothy Wright and Axie Retherford.

### IN NEW HOME

The first affair given in their spacious new home near Raleigh was the dinner given by Mr. and Mrs. B. F. Martin for a number of their friends. Carnations were the pretty table decoration used at the festive board where the guests were sent to enjoy the delicious three course turkey dinner. Beautiful musical numbers aided in the pleasure of the afternoon when solos, duets and trios were played by Mrs. Russel Baker at the piano, Miss Loraine Thompson and Albert Smullen on the saxophone. The guest list included Mr. and Mrs. Charles Elwell and son, Horace, Mr. and A. L. Kennedy, Mr. and Mrs. Amos Glidden, Mr. and Mrs. Eli Martin, Mr. and Mrs. Russel Baker, Ralph Elwell, Miss Loraine Thompson, of Falmouth, Mrs. Maria Smullen and son Albert, Mrs. Lily Ray and son, Albert.

The members of the Monday afternoon Five Hundred Club enjoyed a pleasant time together this afternoon as the guests of Mrs. Hillary Haydon at her home in North Main street. Cards were the main diversion of the affair.

### SURPRISE PARTY

Mr. and Mrs. John Hankins of near Andersonville entertained a number of relatives and friends Sunday at a surprise party in honor of the 84th birthday of Mr. Hankins' father. An elegant three course dinner was served to the guests who enjoyed an evening of music and games. In this pleasant company were Mrs. Sollen Lee and daughters Gladys and Frances, Mrs. Nellie Schibler and family, Mr. and Mrs. Laury Hankins and family, all of Milroy, Mrs. Lige Hankins and family of this city, Mrs. Nora Murphy and family, Mort Hankin, Mrs. Theodore Walker, Mr. and Mrs. G. G. Hankin, and Frank Rickman, of Andersonville.

### SURPRISE PARTY

The birthday of Charles Kennedy of Mays gave a number of his relatives an opportunity to surprise him and his family yesterday. After making the trip in automobiles, the guests arrived about noon. Shortly the contents of their baskets had filled the table for the bountiful dinner which was served. The guests remained for the pleasant afternoon together and the day closed with an informal supper party. Those who cleverly planned and executed this affair honoring Mr. Kennedy were Mr. and Mrs. Harry McMillin and children, Mildred and Richard, Mr. and Mrs. E. L. Kennedy and sons, John and Karl, Mr. and Mrs. Lon Kennedy and son, Weldon, and Mr. and Mrs. Herman Tompkins and son, John K.

### NEWS OF INTEREST TO COLORED PEOPLE

Honoring Miss Ora Skelton of Indianapolis, Mr. and Mrs. H. L. Bundrant entertained a number of their friends Sunday afternoon. The rooms were prettily arranged in white and pink roses. The color scheme was used throughout the dainty three-course luncheon which was served. The guests were the Misses Sophronia Ferguson, Fannie Ramey, Ora Skelton and Roy Evans Luther Ramey and Mrs. Myrtle Hinton, Mr. and Mrs. Wilson Bundrant.

An exchange and penny supper will be given at the Methodist church on Friday afternoon and evening. Every lady in the church is asked to give one article for the bazaar, which will be managed by the 1st and 2nd divisions of the Aid society. The supper will be served by the 3rd division. Everyone invited.

## YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N. Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 522 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs helpful advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

## BUILDING BOOM STARTS

Two Residences and Two New Buildings Begun at Milroy.

A building boom of no small proportions started in Milroy today. Work was started on tearing down the old Odd Fellows building which will be replaced by a new, modern building, and the wrecking of the Christian church was begun. The old church will be replaced by a \$15,000 structure. Work was also started today on two new modern residences in the new addition to the east of Milroy. One of the houses is being built by Frank McCorkle and the other by Chris King.

## TWO IN POLICE COURT

Roy (Splice) Morrison, colored, and Frank Joyce were arraigned before Mayor Bebout this morning on charges of public intoxication. Both entered pleas of guilty and were fined one dollar and costs. In default both went to jail for eleven days. Joyce was arrested Saturday night and Morrison Sunday.

# NEW LAW DIDN'T PREVENT PANIC

Financial Relief at Outbreak of War Made Possible Through Emergency Currency Bill

COMMISSION GETS CREDIT

Republicans Claim Some Credit Because Old Measure Was Incorporated in New One.

Washington, April 10.—The Republican Publicity Association, through its president, Jonathan Bourne, Jr., today gave out the following statement at its Washington headquarters.

"In view of the fact that Democratic speakers and writers have frequently made the assertion that it was the Federal Reserve System that saved the finances of the country during the threatened panic immediately after the outbreak of the European war, it is as well that the people of the country keep a few definite facts in mind.

"Although the Federal Reserve Act was passed in December, 1913, the Federal Reserve System had not been placed in operation at the time of the outbreak of the war, July 31, 1914. This fact is stated by Secretary of the Treasury McAdoo, in his annual report for the fiscal year 1914. After expressing satisfaction over the manner in which business came through that test, Mr. McAdoo says:

"This has been accomplished notwithstanding the fact that the Federal Reserve System authorized by the act of December 23, 1913, was at that time only in process of formation and was, therefore, unable to render any service in the situation."

"The financial relief afforded the banks of the country was in the form of emergency currency, issued and distributed under the provisions of what is commonly known as the Aldrich-Vreeland Emergency Currency Act, enacted in 1908. That Act was continued in force, the only change therein made by the Reserve

Act being a small reduction in the rate of taxes to be paid upon the emergency currency.

"In addition to these facts regarding the manner in which a panic was averted, it is also well to remind Democratic speakers and writers that the Federal Reserve Act, is not the product exclusively of Democratic statesmanship, but was very largely a result of work that had been done by the Monetary Commission created in 1908. Without going into an extended discussion of the influence of the work of the Monetary Commission upon the Federal Reserve Act, brief quotations from the New York Times—a paper not unfriendly to this Administration—will sum up the facts. In an editorial on December 24, 1913, the day after the enactment of the Federal Reserve Law, the Times said that the National Monetary Commission had fostered and developed a public sentiment for currency reform. 'In fact, the ground was prepared by the Commission for the legislation that has just been enacted, and the Owen-Glass Bill contains some of the principal features of the Aldrich Bill, described in part in almost the same language.'

"Upon signing the bill, President Wilson attempted to give credit therefor to his party alone, ignoring the fact that the bill in its original form was faulty in the extreme. The Times recognized the injustice of that partisan claim, and on December 25th, 1913, said:

"Surveying the process from introduction to enactment, the result was a fundamental transformation of the bill. But for the continued, powerful and effective influence of public opinion we can hardly doubt that the measure would have been so faulty that its acceptance by the banks would have been exceedingly doubtful, its success improbable."

"In the Administration of the law the party in power has been not only partisan but influenced by local interest. There is no disposition on the part of Republicans to deny to the Democratic party any credit to which it may be entitled for the enactment of the Federal Reserve Law, though its sponsors now admit it to be. But while conceding to the Democratic Administration any credit to which it may be entitled in the enactment of the measure, Republicans can very appropriately and justly point to the service rendered by Republicans."

## HAS WAY TO RELIEVE GASOLINE FAMINE

Head of Forest Service Tells How to Convert Sawdust into Alcohol and Help Conditions.

YIELD INCREASED 25 PER CENT

Washington, April 10.—The story of the conversion of sawdust into alcohol, at a cost of from 13 to 15 cents, and the relief thereby of the gasoline famine in the automobile industry is told in scientific form in a survey of the work of the federal forest products laboratory at Madison, Wisconsin. This survey has been prepared by head of the forest service, Henry S. Graves, to show some of the characteristic work of the laboratory, in view of the proposal to increase the appropriation for its experiment and investigations. Mr. Graves' review of the work, as sent to the senate by the secretary of agriculture includes the following memorandum on Improvements in Process of Destructively Distilling Hardwoods.

"It is this industry that supplies the country with wood alcohol, acetate of lime and charcoal. It consumes annually over 1,000,000 cords of wood, valued at approximately \$3,150,000, and produces products valued annually at \$10,000,000. Laboratory tests have developed a method, involving practically no outlay for additional apparatus or material and no increase in the time of operation, which has increased the yields of alcohol 25 per cent and of lime 10 per cent. Universally applied this would mean an annual increase in value from the raw material of approximately \$1,150,000."

## HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a very, no-good feeling—you should take Olive Tablets.  
Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.  
Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.  
If you want a clean, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause.  
Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.  
They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.  
Take one or two nightly and note the pleasing results.

## Mothers! You can Save Money on Boys' Clothing

Mothers often buy their boys the lowest-priced suits they can find believing this to be the most economical way, but it is not actually the case

A garment cheaply or carelessly made gives out at some or all points so much sooner than the one thoroughly made that frequently two of the poorly made suits are worn out during the life of a good one.

Perhaps the good suit will cost more, but not twice as much. Therefore, in the course of a few months you have actually saved money on the better suit.

**Of All Boys Clothing Xtragood  
Has the Better Making**

A large choice of fabrics in single and double-breasted Norfolds. Some box-plaited; nifty patch pockets on others; belts one and three-piece and extra trousers if you desire.

XTRAGOOD is made on a plan of double reinforcement of all wear-points. The pockets are extra-staid, trousers are full-lined with the best of strong twill lining. Collars are hand-felled, and the front and shoulders tailored carefully so that they will not readily wrinkle or lose their shape. It not only gives longer wear service, but during the time of wear maintains the stylish appearance of a new garment.

This extraordinary care throughout the production of XTRAGOOD results in better style appearance and greater satisfaction during wearing-time than can be obtained from ordinary clothing.
